

# DWA\_03.5 Knowledge Check\_DWA3.2

---

1. User story(ies) in Gherkin syntax for the "+" button.

Feature: Increment counter value

As a user

I want to be able to increment the counter value by pressing the "+" button

So that I can increase the count

Scenario: Increment counter value by pressing the "+" button

Given the counter app is open

And the current count is 5

When I press the "+" button

Then the count should increase to 6

---

2. User story(ies) in Gherkin syntax for the "-" button.

Feature: Decrement counter value

As a user

I want to be able to decrement the counter value by pressing the "-" button

So that I can decrease the count

Scenario: Decrement counter value by pressing the "-" button

Given the counter app is open

And the current count is 8

When I press the "-" button

Then the count should decrease to 7
